On page 92 writes of a further publication which deals exclusively with the **NKJV**:
“We have a **computer printout** of the analysis of the **NEW KING JAMES VERSION** comparing it to the Hebrew and Greek and we give over **2,000 examples**, chapter and verse, of where the editors have **added to, subtracted from, or changed the Word of God** by paraphrase.” (This publication is: **B.F.T. #1442**) You should purchase these two publications. They are worth every cent. The **Bible For Today Press** will, upon request, send you a catalogue of titles concerning the vital issue of **Bible Versions**.

No Christian can afford to dismiss the subject of **Bible Versions** as unimportant. That could be a fatal mistake! Since the days of the **Apostle John**, there has been a constant war as to which is the **real Word of God!** The history of Christendom (especially in Waldensian and early Reformation times) abounds with details of how the **Roman Church** on the one side and the **Protestant Reformers** on the other, have battled over this issue. Before we study a book calling itself **God's Word**, we Christians, especially if we are in positions of leadership, must make sure we are correct. We thank God that He opened our eyes to our error in this respect before it was too late - for us! In view of this, please continue your studies and lead the flock of God in your area back to the truth. **May the Almighty bless you as you seek to do His will.**
